

# Bringin The Block

Written by Tru Dixon

As the organizers of this movement, we want you to truly feel how essential it is to understand what this song represents. Its message has the power to not only reach tens of millions of voters but also inspire their hearts—lifting them up, strengthening their spirit, and inspiring the kind of determination that carries people all the way to victory.

This song centers on **community empowerment**, **unity**, and **collective action**. It's about neighborhoods (“The Block”) coming together to show strength, presence, and voice—especially through voting and civic participation.

Throughout the verses, the song criticizes any leader and their loyal followers for dishonesty, harmful behavior, and misuse of power. The message emphasizes that the people are tired of being misled and are ready to hold those in power accountable.

The chorus and outro reinforce themes of:

- **Mobilizing the community**
- **Showing up everywhere (“every spot”)**
- **Raising hands, voting, and being visible**
- **Taking back power and shaping a new direction**

Overall, the song is about a **collective rise-up**, with the block unifying to bring about change and replace a leadership they view as disrespectful and damaging. The tone is confident, rebellious, and focused on reclaiming democracy.

**SOLO – Male**

Whole crew outside!

*Whoa up!*

**SOLO – Female**

Whoa up!

**SOLO – Male**

Whole crew outside!

**SOLO – Male**

Whole crew outside!

**CHORUS**

*Whoa up!*

**SOLO – Male**

That knock!

**CHORUS**

*Whoa up!*

**SOLO – Male**

With you by my side!

**SOLO – Female**

Yep!

We bringin the block! (3x)

Bringin the block! (2x)

Block! (4x)

**CHORUS**

*Bringin' the block*

*Bringin' the block*

*Time to vote them out, poppin up on every spot*

*Every corner know my name, from the first to the fifth, that's a lot*

*Every hand in the air, that's a shock*

*We gone bring the block,*

*Whole block, yep,*

**Male Soloist** – Bring the block

*Whole block, yep*

**SOLO - Male**

The disrespect, the lies, families afraid

**CHORUS**

*Yep!*

**SOLO - Male**

Our democracy has been betrayed

**CHORUS**

*Yep!*

**SOLO - Male**

They cheered you on when you made no sense

Called you a genius with zero evidence

Got us lookin' lame — that's facts

Doin' the USA wrong that's whack

Monopoly swagger, you big-cat

Treatin' us low like your personal mat

## **CHORUS**

*Bringin' the block*

*Bringin' the block*

*Time to vote them out, poppin up on every spot*

*Every corner know my name, from the first to the fifth, that's a lot*

*Every hand in the air, that's a shock*

*We gone bring the block,*

*Whole block, yep,*

**Male Soloist** – Bring the block

*Whole block, yep*

## **SOLO - Male**

They were ridin' for you like you walked on gold,

But the truth hit hard when the story got told

Whole country tired of the tricks you play

We the ones pickin' up the mess you made

You was flexin' loud, but the vibe fell flat

Talkin' big talk with nothin' to back that

Now the block woke up — we done with the shame,

'Cause the power in the people, not the hype of your name

## **CHORUS**

*Bringin' the block*

*Bringin' the block*

*Time to vote them out, poppin up on every spot*

*Every corner know my name, from the first to the fifth, that's a lot*

*Every hand in the air, that's a shock*

*We gone bring the block,*

*Whole block, yep,*

**Male Soloist** – Bring the block

*Whole block, yep*

## **SOLO - Female**

We the ones steppin' in to set things right  
Turnin' all this pressure into power tonight  
You been runnin' wild like the rules don't stick  
But the block got receipts and the block move quick  
We the heartbeat now — we rise, we claim  
Every hood, every hall, every last name flame  
You can't shake a people when they stand as one  
'Cause the block don't break — nah, the block just run

## **Male and Female**

From the curb to the court, we lift,  
From the stoop to the steps, we shift  
Every voice, every vote, every block we bring  
This the sound of a whole new regime  
We done waitin', we done holdin' back  
This the moment we take our power back

## ***CHORUS***

*Bringin' the block*  
*Bringin' the block*  
*Time to vote them out, poppin up on every spot*  
*Every corner know my name, from the first to the fifth, that's a lot*  
*Every hand in the air, that's a shock*  
*We gone bring the block,*  
*Whole block, yep,*

## **Male and Female**

Bringin the block!  
Bringin the block!  
To Vote Them Out!  
Vote Them Out!  
Vote Them Out!  
Vote Them Out!  
Vote Them Out!
